

Multi-use panel to present findings

By DON HORTON

POSTED: September 21, 2008

Editor, OBSERVER:

On behalf of the Board of Directors of the Chautauqua Multi-Use Organizing Committee, Inc., I would like to thank all who participated in the recent Fundraising Study completed by Dr. John Earshen from the Mattison Group. The purpose of this study was to find out if this area can financially support a new sports complex in Northern Chautauqua County.

Special thanks go out to Frank Porpiglia and Jamestown Community College for the use of a room to conduct Dr. Earshen's interviews. JCC has also graciously allowed us space to conduct our monthly meetings over the past six years and we are grateful for their continued hospitality.

Dr. Earshen will present the results of his Fundraising Study on Thursday, Sept. 25 at 7 p.m. at the Fredonia Central School Auditorium. The public is invited to this meeting and anyone interested in donating to the construction of this facility is strongly urged to take part.

For more information about our group, please contact me at 640-7457, dhorton625@roadrunner.com, or check out our Web site at www.cmusf.com.

DON HORTON,

President
